- Expired Meter Alerts

Traffic & Parking
Simplified Workflow

The JusticeONE® E-Ticketing Mobile App powered by Courtware, is designed specifically for speed and ease of use by agencies needing a simple, flexible, and affordable solution for E-Ticketing and parking enforcement.

Users will enjoy a streamlined and guided path for issuing citations. On-screen finger signature is captured for offender and officer E-signature is auto-filled. Multiple violations can easily be added to a single traffic stop. Ticket templates make it super-easy to pre-populate citations issued in common or repeat locations and conditions.

We make your team more productive.

Our smart screen designs and extreme data auto-fills reduce the time it takes to issue a citation.

Admin Portal

Hosted on CJIS secure, Microsoft Azure Government Cloud. Admin Portal for setup, config, and management of your data
