Juvenile Court™

Simplifying the Processing of Juvenile Traffic Court

Industry Leading Public Safety Software Since 1997

Real-Time DDS Person Identification and Electronic Submissions of Citations for Juvenile Courts in Georgia

Easy Management of Juvenile Citations with Electronic Submissions to Georgia DDS

We invite you to leverage Courtware's long history of success in serving Courts in the State of Georgia through our newest product configured specifically to serve Juvenile Courts in citation case management and real-time submissions to DDS. This software will simplify your processing of Juvenile Court.

- Easily tracking and management of case dispositions
- Real-time person identification with Georgia DDS database
- Submit case dispositions in bulk using batch DDS submissions
- Next day returns on DDS errors and help with error correction
- All DDS forms are provided in the Juvenile Court™ software
- NCIC certified courts can use our Batch History tool to run histories for Juvenile cases

Simple **DATABASE**

Our new Juvenile Court™ software provides you with a simple and secure database for entering Juvenile traffic cases, tracking and reporting on dispositions, and submitting Juvenile citations to the State of Georgia.

Easy **DDS SUBMISSIONS**

With our solution, you have real-time access to the State of Georgia DDS database for person identification, single or bulk case submissions, next day returns on DDS errors, and more. All DDS forms are provided in the software.

Technical **SUPPORT**

As a Courtware partner Agency and customer, you receive FREE technical support, upgrades, and training with the Juvenile Court™ solution.

Toll Free: 1-866-530-1452

"We wanted to provide Juvenile Courts in the State of Georgia with a simple, yet real-time DDS connected solution." David Hosea- CEO
